**2018 Annual Consumer Confidence Report (Water Quality Report)
Now Available**

(New Braunfels, TX – June 29, 2018) The annual New Braunfels Utilities (NBU) and Oakview Subdivision Consumer Confidence Reports are now available to view online at nbutexas.com or by going directly to www.nbutexas.com/2018waterreport, then choose the report you wish to view by location.

New Braunfels Utilities prepares an annual water quality report for its customers on both the NBU water system and the Oakview Subdivision water system. These reports summarize the results of NBU's water monitoring program as required by the Environmental Protection Agency (EPA) during 2017. The analyses are required by the Safe Drinking Water Act; however, NBU monitors for contaminants above and beyond the basic requirements. The report is a summary of the quality of water NBU provides its customers, but more importantly, it is their assurance that the water NBU supplies is regulated and continues to meet or exceed all federal and state drinking water requirements.

New Braunfels Utilities has met and surpassed all state and federal drinking water standards. Unless otherwise indicated, the information in the reports are based on tests conducted in 2017.

Customers with questions regarding the report or who would like a paper report can call 830.629.8400.
