

# **Central Texas** Water Softeners

# **AQUA FLO**<sup>®</sup> Industrial 8" X 40" **Reverse Osmosis Membranes**

New Agua Flo elements consistently offer high quality water and reliable system performance by operating at lower pressures and low energy costs.

## Features:

- Superior quality and cost savings
- Long lasting performance
- Low energy costs
- High flux rates
- High rejection rates
- Dry shipped for convenient handling and long shelf life
- Individually inspected and vacuum tested

#### AQ-U-8040

Low energy membrane for TDS reduction of surface water, groundwater, tap water, or other low salinity sources (<2000ppm).

#### AQ-U-8040-HF

Ultra Low energy and high flow membrane for TDS reduction of surface water, groundwater, tap water, or other low salinity sources (<2000ppm).

#### AQ-U-8040-HR

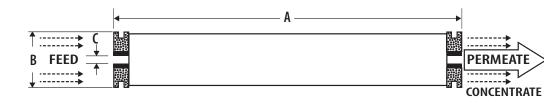

Low energy and high reduction for TDS reduction of surface water, groundwater, tap water, or other low salinity sources (<2000ppm).

#### AQ-L-8040-400

Low energy and high reduction for TDS reduction of brackish surface water, groundwater, tap water, or other high salinity sources (<10,000ppm).

#### AQ-FR-8040-400

Foul resistant low energy and high reduction for TDS reduction of high salinity sources (<10,000ppm) as well as industrial water treatment to reduce organic pollutants.
